II. Recruitment					
Action	C&C Principle	Responsible Unit	Timing	Indicator(s)/ Target	Current status
Action 12: Personnel who are part of the Selection Committees will receive a training program in the updated recruitment procedure, which includes OTM-R practices	12 and 13. Recruitment	Human Resources Unit	2019-2020	Nº Training activities on updated procedure	Done
Action 26 (new action): New e-recruitment tool will allow a more open, transparent and efficient recruitment process, as well as better tools for monitoring	12, 13 and 14. Recruitment and selection	Management/ Human Resources Unit	2021-2022	Start-up new software	<p>Ongoing: This action has suffered a delay because it is an action that has been carried out for all biomedical research foundations in Andalucía. The service has already been tendered in April 2022 and awarded to the company SEMICROL. We are now in the analysis and design phase so that the new software responds to the selection and recruitment needs of the Foundation.</p> <p>Therefore, it is necessary to extend these parts of this action for the coming months. Once the analysis is done, the development phase will begin, according to the plan and the analysis carried out, and then the testing and validation phase, to finally train the staff and start working with this new software.</p> <p>Programmed action in new 2023-2025 action plan</p>

HUMAN RESOURCES STRATEGY FOR RESEARCHERS - HRS4R FOLLOW UP 2019-2022 ACTION PLAN

Action 27 (new action): Update of the personnel recruitment procedure (P.S101.1) for more open, transparent and efficient practices which encourage external candidates to IBIMA, foreign candidates and groups with little representation to present themselves to the job offers of the institute (OTM-R)	12, 13 and 14. Recruitment and selection	Human Resources Unit	2020	% of applicants recruited from outside the institution/from abroad/ % of groups with little representation	Done: Procedure was updated in 2021. Ongoing: However, it is not easy to measure the proposed indicators until the new Personnel Selection software is operational, due to the annual volume of job offers published, whose management is manual. Programmed action in new 2023-2025 action plan
Action 28 (new action): The document PS102.1 that includes some templates for research personnel (pre-doctoral, postdoctoral, technical, data manager, etc.) will be updated to comply with EURAXESS formats (OTM-R)	12, 13 and 14. Recruitment and selection	Human Resources Unit	2020	Procedure updated	Done: Procedure was updated with some Euraxess formats. Ongoing: The procedure PS102.1 will also be updated with the breakdown of jobs, the details of the functions and profile of each position, once the first collective agreement for the Research Foundations sector is approved (is under negotiation). Programmed action in new 2023-2025 action plan
Action 29 (new): Job offers are published in Euraxess web for all positions in international projects and those that are determined of interest according to the required profile. (OTM-R)	12, 13 and 14. Recruitment and selection	Human Resources Unit	2020	% of job adverts posted on EURAXESS/ % of applicants recruited from outside the institution/abroad	Done: Expressions of Interest for International projects are published in Euraxess. Ongoing: We need more personal resources in order to publish all IBIMA job offers. So we will work together with the Andalusian Treasury, who authorizes the hiring of new structural personnel, to achieve the incorporation of new personnel and can carry out this task. Programmed action in new 2023-2025 action plan
Action 13: Include external experts for the selection of personnel of strategic positions (define these strategic positions)	14. Selection	Human Resources Unit	Q2-Q3 2019	% of external experts participating in selection processes	Done

HUMAN RESOURCES STRATEGY FOR RESEARCHERS - HRS4R FOLLOW UP 2019-2022 ACTION PLAN
